The Farm Gas Engine.
The increasing use and popularity of the gas engine on the farm, supplanting as it has, the steam engine where moderate power is desired, creating a new field of usefulness for itself in the smaller powers, bears testimony as to its high efficiency and its adaptability to farm power requirements.

Just as there are men who would not be successful in handling any kind of a machine—even a wheelbarrow—so there can be found men who can not operate successfully a well built and almost "tool proof" gas engine.

The thousands of machines in successful operation show the satisfactory depending to a large extent upon the ability of the owner.—New Education.

Value of Oil Property.

The assessed valuation of oil and gas pipe lines in Oklahoma this year aggregates \$56,720,636, which includes value of stored oil and of the Prairie Oil and Gas Company's Oklahoma production. Producing subsidiaries of the Texas, Magnolia and Gulf pipe lines are not included in this total.—Ardmore Statesman.

BOB WILLIAMS FARMER

Governor Eliot Spent Time Here Last Week Planning his Next Year's Farming Operations.

Judge R. L. Williams, governor-elect of Oklahoma, spent a few days last week at his farm near Durant. While here Judge Williams planned the farming activities on his biggest farm—2 thousand acres—which lies along Blue River. He is a diverter in farming and this year he will carry his rotation a bit further than in the past. His crops will be cotton, corn, felerita, and oats. One fourth of the land will be planted to cotton, one fourth to corn and felerita, and one-half to oats.

Oats, he says, has proved to be a profitable crop in his farming operations. He now has 3 thousand bales of oats in his granaries which will be sold when the market suits him. Judge Williams has tenants on his farms. He makes few leases and most of the tenants have been with him for a long time. Most of the tenants went on the land when it was in a raw state and have been clearing and getting it ready for cultivation from year to year. They are renters on the shares and no cash rent is charged by their landlord. He furnishes the land and in some instances the capital and the tenants make the crops.

"I went to see a farm the other day," said Judge Williams, "that I have owned for five or six years and have never seen it before. I bought it 'sight unseen' as the boys say in their trades, and leased it to a man with the understanding that he was to get it into cultivation and retain all he made on it in the meantime. He has been doing right well in getting the timber off and when the stumps are all gone it will be the best alfalfa land I ever saw. The 500

acres cost me \$5.50 per acre and an alfalfa field it will be worth \$75 per acre, but the clearing of the land of timber and stumps adds to the investment by the time the land is fit for mowing purposes."

Judge Williams was asked if his farming operations yielded him profit, and replied that they always had. He says he has made \$2 an acre, net, from his big Bryan county farm while it has been undergoing improvements and the tenants have also made money.

Cotton Dropped.

Cotton dropped thirty-two points on the first day that the New York Exchange opened for trading in futures, Monday of this week. This drop occasioned considerable surprise among the large brokers and cotton men in New York.

The cause is thought to be from the fact that most of the trading on the opening day was selling on the part of the cotton buyers to hedge the cotton they have on hand.

STOMACH TROUBLE FOR FIVE YEARS
Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.
Pomeroyton, Ky.—In interesting advices from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Theodor's Black-Draught, and quit taking other medicines. I decided to take his advice, although I did not have any confidence in it. I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it. I am so thankful for what Black-Draught has done for me." Theodor's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest. Get a package today. Only a quarter.

WE are always ready to sell you the right kind of timepiece at the right kind of a price. There is nothing better than the best, and no honest man can sell an honest article lower than the low water mark.

THERE'LL BE NO Special Sales Here!
We do not mark our goods high during season, and cut them down low to close out at the end of the season like many stores do. We hold a sale every day at our store. In the beginning, our goods are marked just as low as we can afford to sell them for and that price is maintained to one and to all, all the time. We have bought our stock right, before price raising commenced, we have taken our discounts, and we own our stock cheaper than most stores do. The result is that we can make the same margin of profit and still save you and other customers money on your winter purchases. Our business has grown every week since we opened up and is growing yet. Visit us for bargains, every day.
